

Bachelor of Medical Imaging (CH3757)

Additional Requirements

Applicant's full name

Date of birth

Health

While health issues are not usually a barrier to acceptance into the medical imaging programme, the following questions help us to determine whether you have any health issues that may affect your ability to practice safely. As some health issues may make it difficult to manage clinical practice and/or full-time study, the selection committee may wish to discuss these with you to determine any support you may require if you are successful with your application.

Have you, or anyone in your family, had any **physical** or **mental health** issues? Yes No

If you answered **yes**, please provide details below:

Convictions against the law

At the completion of the Bachelor of Medical Imaging programme leading to registration as a medical imaging practitioner, students are required to sit and pass the Medical Technologists Board online examination.

The application for registration asks students to disclose if they have been convicted of any offence against the law.

It is therefore our policy to alert applicants to this requirement and to ask them to make a similar declaration when they first apply. This information is sought so potential problems regarding registration as a medical imaging practitioner and access to clinical experiences may be discussed.

As all accepted applicants are police vetted through the enrolment process, it is important this initial declaration is correct. If an applicant provides information that is proved to be false/misleading, the application/enrolment may be declined/withdrawn.

An interview may be arranged to discuss any conviction declared.

Have you ever been convicted of any offence against the law (apart from minor traffic convictions)? Yes No

If **yes**, please provide details.

Declaration

I declare that all information provided in this form is true, complete, and accurate to the best of my knowledge.

I confirm that I have answered all questions honestly, including those relating to my health, and any convictions or matters that may affect my fitness to practise or eligibility for registration as a medical imaging practitioner in New Zealand.

I understand that, under the Health Practitioners Competence Assurance Act 2003, I must be able to demonstrate that I am fit to practise, including being able to communicate effectively and not pose a risk to the health and safety of the public.

I acknowledge that information provided in this form may be used to assess my suitability for clinical placement and, ultimately, eligibility for professional registration with the Medical Radiation Technologists Board.

I understand that providing false, incomplete, or misleading information may result in my application or enrolment being declined or withdrawn, and may impact my eligibility for registration.

I agree to notify Ara Institute of Canterbury of any changes to my circumstances that may affect my fitness to practise, clinical placement eligibility, or registration status.

I confirm that I have read and understood the information provided in this form and the requirements relating to clinical practice and professional registration.
